Merit Packaging develops and produces a range of packaging for the food industry. It is our priority to provide food packaging that is safe, hygienic and compliant with food safety standards. We are consistent with our procedures and manufacturing processes in a clean and safe working environment.

This Food Safety Policy commits to:

- Provide structural framework based on the foods safety requirements for consistently meeting customer requirements and safeguarding consumer health.
- Develop and strive to achieve food safety objectives related to our scope of work.
- Complying with relevant laws and regulations as well as internal requirements,
- Continually challenging ourselves to improve the food safety system to guarantee product safety, prevent food safety incidents and eliminate defects through the review of food safety objectives and results.
- Communicate and promote food safety aspects, strategies and performance to both employees (at all levels and functions of the organization) and business partners (including suppliers, contractors, joint venture and partners and small holders) that have an impact on, or are affected by the Company's food safety system.
- Encouraging participation and promotion of food safety responsibilities amongst all employees through standards, education, training, supervision and effective communication.
- Conduct audits of food safety systems to verify the effectiveness.
